EASTER

Het Anker har brygget denne specielle Easter til det Danske Ølmarked. Den består af flere forskellige malte, og igennem brygprocessen tilsættes tre forskellige krydderier, for at give øllen denne "special taste". Den mørke farve, den afbalancerede smag, en sand kilde selv for den mest kritiske kender... Skål

We brew this dark special beer only for Easter. It contains several types of malt and during the brewing process three different kinds of herbs are added to give it that fine, special taste. The result? A smooth ruby-red beer with hints of star anise and orange. A true delight, even for the most critical connoisseur.
